

## Honda Cars Are A Name To Be Reckoned With

Honda made modest beginnings post World War II with its range of motorcycles. The first Honda car saw the light of day in the 60s, when the company released its first automobile model. Since then they have established themselves as the leader in the automobile industry. Honda cars are truly a step above the regular manufacturers who aim for trustworthy and gas saving automobiles. With Honda, it is a given that you get unmatched power, a relaxed ride and great miles per gallon. Currently the fourth largest automaker, Honda vehicles are undoubtedly popular with consumers. With Honda you know that you will get just the right car that fits your lifestyle and is light on the pocket too.

The allure of Hondas cars is not limited to specific geographies. Oft times you will notice that Honda cars seem to hesitate with rebates and money back attractions. The primary reason behind this is to counter a fall in resale value in the homeland. The company makes up for this by coming up with more attractive lease deals and lowered rates on Honda cars. Honda cars offer a range of features from potent horsepower to roomy interiors, which afford a comfortable and safe ride.

Honda car models range from Element, a model that is quite unusual, to the Civic, a prime example of small cars. The Civic has also seen some user friendly modifications in the form of an in built navigation system and monitoring of tire pressure. The year 2008 has seen a complete revamp of Honda Accord. Honda cars have also seen the new improved Odyssey with more engine power, a modified wheel design and better suspension too.

Honda cars also make a mark in the award arena, bagging quite a few distinctions there. The Honda Civic scores particularly well on the awards platform, being judged the best Motor Trend Car, while the Ridgeline, a Honda van, gets rave reviews for its show of power. Its not an exaggeration to day that the Honda range of automobiles are trusted for their robust engines and power packed driving capacity. Indeed, Honda cars have a reputation for reliability and are well worth every penny. No wonder they have earned the Automotive Lease Guides Industry Brand Residual Value Award, that especially identifies brands with optimal resale value. With new [Honda cars](#) in the line up including the Si Mugen sedan, Honda is all set for the next generation. Find more [Honda parts](#) -
